Benefits

New product from one of the pioneers of the American macaron market, Macarooz. The very first macaron pop product on the market. Same form factor as cake pops, but made of macarons instead of cake.
Compared to traditional cake pops, Mac Pops are certified gluten free where cake pops are not, less sweet, and contain less free moisture content (better bite experience, longer shelf life)
Our packaging has been custom made to reduce shrink and MOS. The packaging is also airtight and resealable to increase shelf life and customer satisfaction post purchase. Packaging is 100% recyclable at the curb.
