100490 - Chive & Onion Double Gloucester

This cheese blends chives and onion with the finest handmade Double Gloucester, one of Britain's revered

* Benefits

The Singleton family first started making cheese on the grassy slopes of rural northern England in 1745. Cheesemaking is currently masterminded by father-and-son team Tom and Adrian. Their dairy is only a few miles from the tiny farm where the Singletons' story began.

This cheese blends chives and onion with the finest handmade Double Gloucester, one of Britain's revered Territorial cheeses. In the eighteenth-century the orange hue (derived from a natural dye taken from the achiote tree) was added to cheese made in winter in order to mimic the yellower cheese that comes from the milk of pasture-fed cows in summer. Over time, this developed into Double Gloucester.
