* The % Daily Value (DV) tells you how much a nutrient in a serving of food contributes to a daily diet. 2,000 calories a day is used for general nutrition advice.

Handling Suggestions

In its original packaging, a firm cheese will keep for several months. During this period the cheese continues to ripen and develops a more pronounced flavour. Once the package is opened, we recommend wrapping cheese in cling wrap to keep it from drying out. The best place to keep firm cheeses is in the vegetable drawer of your refrigerator, far from any strong smelling foods.

Serving Suggestions

On a cheese platter, perfect on grilled meat and burgers

Prep & Cooking Suggestions

Remove from the refrigerator and let it warm to optimize flavors
