

Sant Aniol

# 101712 - Natural Mineral Water Rocks Glass

A unique range especially designed for Sant Aniol. Where the bottles are shaped resembling the rocks that have filtered water for thousands of years, the volcano makes its appearance at the bottom of the bottle.

## \* Benefits

The incomparable origin of Sant Aniol Volcanic Natural Mineral Water gives it unique characteristics with excellent quality and an unequalled degree of purity, something that has been ratified by different international awards. Our strict quality control and our production process, exempt from human contact, allows us to guarantee that both the extraction and bottling process is free of contaminants so that the natural mineral water we offer on the market is in its purest state. Sant Aniol has a strong environmental commitment, and all our bottling takes place only using 100% green energy. Proudly we have just launched the first line using only 100% recycled plastic, 500 DRIPS, reducing 75% CO2 emissions. Our Volcanic Spring is given to some of the finest hotels and restaurants not only in Spain but all around the world since we have been exporting for over 15 years with our main markets being set in Japan, The United States, China, UK and Australia. The quality of the water that flows from the spring of Sant Aniol comes from lava sediment and volcanic rock filter that is thousands of years old. A legacy perceived in every drop that, not in vain, has twice earned it the Superior Taste Award, an annual prize given to the best international food products. Sant Aniol water is Natural Mineral Water. Obtaining this designation has meant passing countless requirements and the most exhaustive analysis to demonstrate its perfect balance and quality and the maintenance of its volcanic purity from the moment it emerges from the spring until it flows out to the consumer table. It is worth noting its 7.3 PH and its rich and balanced chemical composition with an abundance of minerals that improve your health and wellbeing. Its high calcium content helps the development of your bone structure and is therefore highly recommended for children, teenagers, and pregnant or lactating women. Furthermore, its calcium as well as its low level of sodium and chloride help to reduce hypertension. Thanks to its high level of magnesium and bicarbonates, Sant Aniol contributes positively to the correct function of the nervous system and gastric digestion aiding intestinal transit. For these reasons, Sant Aniol is considered something more than simple H<sub>2</sub>O. We stand next to our partner and our top priority is always being by their side. Our goal is to keep working hard to spread our volcanic spirit, will you join us?

## Ingredients

Natural Mineral Water

## ⚠ Allergens

### Free From:

- crustaceans
- eggs
- fish
- milk
- peanuts
- sesame
- soy
- tree nuts
- wheat
