## \* Benefits

As a pioneer in the American macaron market, Macarooz has been focused on making the best gluten free treats available for over a decade. We are continuing this tradition by doing something that has never been done before. We are using our award winning macarons as the base ingredient in other familiar baked goods. The first of these "made from macaron" products is the Mac Pop. This is our take on the traditional cake pop. Our Mac Pops are gluten free, flavorful, and are made with the finest ingredients. Gluten Free bakery options have not been a priority for years. Those wanting to eat a gluten free diet have been left with few good options when it comes to baked treats. We are committed to changing this. Gluten Free doesn't have to taste bad. We invite you to try Mac Pops for yourself and taste the difference!
