

Culinary Masters

163984 - Grade Aa Cinnamon Ground

Culinary Masters 100% Ground Cinnamon is golden-brown with a sweet cinnamon aroma and flavor. This cinnamon is non-GMO and Kosher and ready to use.

Benefits

Cassia Indonesia is native to Indonesia and southern Asia. You may be surprised that most commercial ground cinnamon is actually cassia or a combination of cinnamon and cassia. Cassia is not necessarily another name for cinnamon, it is a completely different spice, although they are related. It is a member of the same family as true cinnamon, but it has a stronger flavor thus requiring less in volume. Cassia is usually a better choice for savory dishes, rather than sweets. Real cinnamon sticks or quills curl in a telescopic form that is in a perfect circle. But, cassia sticks curl inward from both sides, appearing like a scroll. When ground, it is hard to distinguish between the two. The redifference is in the color and smell of each of the spices. Cinnamon is warmer in tone and tan in color with a sweet flavor, while cassia is more of a reddish brown in color and has a coarser texture, with a stronger, yet more bitter flavor. You probably havent noticed that when you buy cinnamon its most likely cassia, so keep enjoying that fresh and heaven scent when bitting into anything cinnamon.
