* Benefits

Tidewater Grain Co is a family owned, operated farm specializing in difficult to grow Heirloom grains. Tidewater Grain is completely vertically integrated, controlling seed production, planting, harvesting, milling, packaging and distribution. Choosing to always do whats best has proven to create superior taste and quality that chefs will welcome in their kitchens. Carolina Gold Rice dates back to 1685 when it was first brought to the colonies, the first time rice was in the Americas. As the only heirloom rice in the Americas still today, the flavor profile is nutty and rich and superior to the hybrid varieties frequently used in kitchens. More flavor equals more diversity, which chefs will love.

Middlins are a result of the milling process where in brown rice is polished to white rice, breaking some along the way. The result is a broken grain of rice that naturally has more starch content, resulting in a product that is ideal for grits or other higher starch items.
