19055 - Extra Aged Piave Wheel

Piave is a hard cows milk cheese produced with milk from the Bruna Alpina breed, which feeds on fresh grass from surrounding mountain pastures. The rich high protein milk is particularly apt for cheesemaking and imparts the special sweetness so characteristic of Piave

Benefits

This DOP protected cheese is named after the river of the same name. Milk is sourced from cows grazing in the valley by the river, where the cheese is also produced and aged. The rich high protein milk is particularly apt for cheesemaking and imparts the special sweetness that makes this cheese unique. This firm, cooked, pressed cheese is made from two milkings. As it is younger, Formaggio Reggiano, Piave piave will become more crumbly and its nutty and tangy notes of piaveggio will become more intense with age.
