* Benefits

Draped in a distinctive black wax, the extraordinary Grand Noir is dressed for your next fine affair. Grand Noir starts with the very best fresh milk from regional farms in Bavaria, Germany. It is carefully dipped in black wax and then aged at cool temperatures to develop a luscious and creamy texture and delightfully bold blue notes. Grand Noir is free from additives and preservatives, including natamycin, an additive that prohibits mold growth on blue cheeses that has raised health concerns. That's why under Grand Noirs wax exterior you may find blue or grey mold this is a natural development and adds to the stronger blue character of the cheese.
