* The % Daily Value (DV) tells you how much a nutrient in a serving of food contributes to a daily diet. 2,000 calories a day is used for general nutrition advice.

* Benefits

McCalls 6 month Irish Cheddar is made using the milk from cow's who have a primarily grass-fed diet. The result is a full bodied cheddar that has a creamy paste and slight grassy notes with a tangy finish. The heavy grass diet produces a beautiful yellow coloring and imparts a true terroir flavor of the rolling green hills of Ireland. This cheese is fantastic as an ingredient in your favorite cheesy dishes or as a table cheese served with wine, fresh baked breads, and fruit.

Ingredients

Pasteurised Cow's Milk, Salt, Microbial Rennet, Starter Culture
