* The % Daily Value (DV) tells you how much a nutrient in a serving of food contributes to a daily diet. 2,000 calories a day is used for general nutrition advice.

Benefits

McCalls 12 month Irish Cheddar is made using milk from cows who eat a primarily grass-fed diet. This results in milk that is rich and full of flavor. This cheddar is extra aged but remains creamy and dense. The heavy grass diet of the cows gives this cheese a beautiful pale yellow color and complex grassy notes. During the 12 months of aging the cheese develops crystals that add a crunchy texture to each bite. Although this cheddar is best served alone accompanied by a young sparkling wine or stout beer, this cheese is exceptional in recipes that require a cheddar. A truly bold and iconic cheese.

Ingredients

Pasteurized Cow's Milk, Salt, Microbial Rennet, Starter Culture

Allergens

Contains:

Free From:

crustaceans

eggs

fish

peanuts

soy

tree nuts

wheat

Handling Suggestions

Keep refrigerated until ready to serve.

Serving Suggestions

Irish cheddar can be used as an ingredient in your favorite cheesy dish or served alone alongside wine and fresh fruits.

Prep & Cooking Suggestions

Remove from packaging and serve.
