\* The % Daily Value (DV) tells you how much a nutrient in a serving of food contributes to a daily diet. 2,000 calories a day is used for general nutrition advice.

### \* Benefits

Aged Cheddar is a pasteurized, grass-fed cows milk cheese that is aged for one year and undergoes a stringent grading process as it matures. Only the best-tasting cheese makes it through, resulting in a Cheddar that is rich and full-bodied with a smooth finish. Slice it up with warm apple pie or make it the hero of a wine and cheese pairing. There's a reason our Aged Cheddar Cheese tastes like heaven: its made by monks. Well, at least it was thirteen centuries ago when they first started their divine new hobby. Today we use the same attention to detail and the same naturally abundant land to create our 21st century version of this holy grail of Cheddar cheese.

### Ingredients

Pasteurized milk , Salt , Cheese cultures and enzymes

### Allergens
