

Van Tricht 34964 - **Young Farmdal**

Young Farmdal is similar to soft butter in texture. While familiar flavor notes of a Gouda are present such as caramel, it leans more towards sweet cream and vanilla. It finishes with a slight propionic tang helping to cut through the creaminess of the paste.

* Benefits

With the demand for OG Kristal skyrocketing at the same as construction on the new dairy was being completed, there was a need for cheese from the Deweer family that achieved the same great flavors they had established in OG Kristal, but with a shorter aging profile. With the help of Kaasaffineurs Van Tricht, the family is now producing another Gouda available in a younger profile, Young Farmdal. Young Farmdal starts with the same milk and production methods utilized to make OG Kristal, but the family has tweaked the cultures used to benefit younger cheese. In the eight-week old version, the Deweers produced a young Gouda that isnt just about being smooth and creamy, but also has a more complex profile, with notes of vanilla and sweet cream abound.
