* Benefits

Alp Blossom celebrates the diversity of the Alpine flora throughout the Hay Belt, an area that spans Eastern Switzerland, Southern Germany, and Western Austria. Produced and aged at Hofkaserei Kraus in Bavaria, Germany, the cheese is aged to about 7 months before the cheese is covered in a combination of dried edible flowers & herbs pulled from the surrounding Alpine meadows. The flowering of each wheel is entirely done by hand.

Dense, semi-firm texture with herbaceous aromas permeating the paste. Albert Kraus has been producing cheese from the best Aligu milk in the Ebersbach dairy since March 1999. This raw milk comes from two traditional farms located within 5km of the dairy, which are run by his brother Xavier Kraus and by Alberts neighbor.

Every day, the milk of the two Brown Swiss herds is delivered to the dairy, which produces different Alpine-style cheeses, with age profiles ranging from 3 to 18 months.
