* Benefits

Jamn Serrano means "mountain cured ham" and is an integral part of the food culture of Spain. It differs from Italian prosciutto in that it is dry-aged at a higher temperature without lard, resulting in a lower water content and slightly drier texture that concentrates its flavors. We select the best hams produced by Redondo Iglesias, a 3rd generation family owned and operated company. Fresh hams are buried for 10 days in Mediterranean sea salt before being moved to aging rooms for 17 months. No shortcuts are used to accelerate the process, resulting in a superior Serrano that is unctuous and full-flavored. Sweet, nutty, and savory, with just enough salinity for balance.

Ingredients

Pork Ham, Sea Salt, Potassium Nitrate, Sodium Nitrite.
