45162 - Sea Buckthorn Preserve

Sea Buckthorn is a highly sought after wild fruit with flavors reminiscent of green apple, pineapple and passion fruit. Sea buckthorn preserve made from wild foraged fruit makes for an excellent cheese pairing or sauce for grilled and roasted meats.

* Benefits

Sea Buckthorn is a highly sought after wild fruit with flavors reminiscent of green apple, pineapple and passion fruit. Found in northern regions of Asia, Europe, Russia and Canada, Regalis partner with foragers in Canada to source the fruit. The harvesting process is difficult as sea buckthorn branches are covered in long thorns. To allow the wild fruit flavors to remain in focus, only organic cane sugar, lemon juice and pectin are added when making the preserves. With juicy acidity balanced by an earthy aroma, this preserve with a puree-like texture pairs perfectly with the savoriness of sheeps milk cheeses and roasted pork, or simply spread it on toast with butter.
