* Benefits

The cheese is ripened by Wyngaard Kaas in Woerden, the Netherlands, using the traditional method of ripening on wooden boards. During the ripening process the cheese develops a rich and balanced flavor. The cheese is cut and refined with fine herbs, mustard, ginger or other delicious ingredients. These flavorings gradually release their aromas into the cheese giving surprising results: you can taste both the delicate combination of the cheese with the seasonings as well as the unique flavor of the cheese itself.
