* Benefits

This semi-firm sheep's milk cheese with black peppercorns is a popular style in southern Italy. This version stands out because of the richness of the milk, which makes a fuller flavored cheese. Pecorino Pepato Mitica strikes a nice balance between spice and pleasant nuttiness. The cheese is golden yellow in color with ridges from the basket molds used in production. Whole black peppercorns are mixed throughout the paste of the cheese. It has a zesty, peppery bite tempered by nutty sheep's milk. Traditionally used for grating, Pepato (peppered) would be a natural choice for cacio e pepe or an antipasto platter. The cheese is aged 6 months.
