Canola oil is becoming the vegetable oil of choice in the health care industry, characterized by a low level of saturated fatty acids. Canola oil is to replace a similar amount of saturated fat and not increase the total number of calories you eat in a day.

* Benefits

Og trans fat per serving, particularly suited for salads, woks and all light frying uses. Canola oil is becoming the vegetable oil of choice in the health care industry, characterized by a low level of saturated fatty acids. Limited and not conclusive scientific evidence suggests that eating about 1 tablespoons (19 grams) of canola oil daily mayreduce the risk of coronary heart disease due to the unsaturated fat content in canola oil. To achieve this possible benefit, canola oil is to replace a similar amount of saturated fat and not increase the total number of calories you eat in a day.

Ingredients

fully refined canola oil. TBHQ and citric acid added to help preserve freshness. Dimethylpolysiloxane, and anti foam agent added

A Allergens

Free From:

Iron 0mg
Potassium 0mg

The % Daily Value (DV) tells you how much a nutrient in a serving of food contributes to a daily diet. 2,000 calories a day is used for general nutrition advice.

Handling Suggestions

keep in dry area
