\* The % Daily Value (DV) tells you how much a nutrient in a serving of food contributes to a daily diet. 2,000 calories a day is used for general nutrition advice.

Handling Suggestions

To optimize cheese quality, keep cheese cold (32o-40oF) and wrapped in waxed paper.

Serving Suggestions

Serving for a cheese course, cheese board, dessert, appetizer, or hors d'oeuvre. Delicious with your favorite prosciutto or salami and seeded crackers. Top a hot steak or juicy burger with a slice and let it melt as the meat rests. Serve alongside candied orange and a nice port wine for a simple dessert.

Prep & Cooking Suggestions

To optimize cheese quality, keep cheese cold (32-40F) and wrapped in wax paper. Re-wrapping soft-ripened cheese in wax or parchment paper will allow the cheese to breathe as it continues to ripen. Remove your cheese from the refrigerator at least one hour before serving.
