MouCo Truffello: Flavors and Aging Information
When Young: The earthy taste of truffle is evident from the very beginning in this subtle, creamy cheese, which balances taste and aroma quite naturally.
As it ages: Buttery undertones develop as the cheese ages, helping to bring out the truffle flavor and developing an all-around depth and complexity.
Fully Aged (4-6 Weeks): Expect a full-bodied cheese at 3 to 4 weeks, with complex flavors that are still mild enough to work into a salad or sauce without overpowering the dish. The taste and aroma of butter, cream, and truffles make for a delicious cheese you'll have to taste to believe.
