* The % Daily Value (DV) tells you how much a nutrient in a serving of food contributes to a daily diet. 2,000 calories a day is used for general nutrition advice.

* Benefits

ORIGIN is a regenerative dairy collective focused exclusively on the highest quality golden milk from heritage breeds producing only A2 milk. Our products are small family farms, always non-GMO, always pasture raised, always minimally processed and 100% A2. Superior dairy starts with regenerative farming practices where soil health leads to nutritious green pastures which allows our A2 heritage cows to produce rich golden-colored milk that is better for humans, better for biodiversity and better for the planet. The protein and fat content of milk determines the quality of cheese. Milk from heritage breeds has less water, a higher protein concentration, and higher levels of fat. This results in rich-tasting and perfectly-textured quality cheese.

Ingredients

Pasteurized Organic Milk,
Pasteurized Organic Cream, Salt
and Enzymes
