* Benefits

Local product made in the French Rhone Alpes region from local cow's milk.
 A double cream soft ripened cheese specialty, distinguished by its delicate taste of cream, and incomparable melt-in-mouth texture!
 Very thin orange rind washed with natural annatto (plant from South America used by Indian to color themselves red) that gives a more traditional appearance and subtle aromas.
 Specific nutritional qualities: more protein and less fat compared to other soft cheeses thanks to the ultrafiltration process*
 Suitable for vegetarian (microbial enzymes)
 *The Fromager d'Affinois cheese is made from a unique making process: the ultrafiltration.
 The pasteurized milk is directly filtered through very thin membranes that will separate the whey from the curd. This process replaces the traditional draining phase and retains more nutrients in the final cheese. It is one of a kind cheese making process that no other dairy has been able to reproduce to date.
 Guilloteau dairy was created by Jean-Claude Guilloteau in 1981. 3 French production sites.
 Wide range of soft cheeses with various flavor profiles.
 Cow/goat/sheep's milk, light/double/triple cream, flavored, blue: everyone will find a cheese to taste.
 USDA: a very thin rind, a smooth and consistent texture, a delicately characteristic taste.
