\* The % Daily Value (DV) tells you how much a nutrient in a serving of food contributes to a daily diet. 2,000 calories a day is used for general nutrition advice.

\* Benefits

Extended fry life: Lasts up to twice as long as conventional soybean or canola oils, resulting in fewer oil changes and lower true oil costs.  
Consistent food quality: Dependable through the fry cycle and resists flavor transfer between uses for reliably delicious results.  
Up to 50% less waste: Lasts longer and doesn't need to be changed as often, reducing oil and packaging waste so you save time and money while creating a more sustainable kitchen.  
Oil management resources: Comes with tools and training resources to help you make your oil last even longer and build a safer, more efficient kitchen.  
Heart-healthier choice: Free from trans fats, which are associated with a higher risk of heart disease and type 2 diabetes.
