^{*} The % Daily Value (DV) tells you how much a nutrient in a serving of food contributes to a daily diet. 2,000 calories a day is used for general nutrition advice.

Handling Suggestions

Keep refrigerated or frozen. Thaw in refrigerator or microwave. Keep raw meat and poultry separate from other foods. Wash working surfaces (including cutting boards), utensils, and hands after touching raw meat or poultry.

Cook thoroughly.
Keep hot foods hot. Refrigerate leftovers immediately or discard.

Serving Suggestions

Save any juice that is in the pan after cooking for a delicious au jus to pour over the sliced roast.

Prep & Cooking Suggestions

Preheat oven to 350 F. Remove from package and place uncovered roast lean side down in an oven-safe dish. Cook roast approximately 8-11 minutes per pound or until internal temperature reaches 145-160 F. For slicing ease, let the roast stand several minutes before slicing across the small end into 1/4" slices. Ovens vary. Adjust cooking time accordingly.
